

PROVIDING SURFACE PROTECTION FOR THE CONSTRUCTION INDUSTRY

Kingston Riverside Development

Client: Taylor Woodrow Homes

Main Contractor : Midgard

Area of Glass Protected: Approx. 9,500 m² (Internal & External)

Year: 2012/2013

The Project: In 2012/13, Protectorglaze Ltd supplied and applied Protectorglaze water based peelable protective coating for glass on Kingston Riverside residential apartment development.

The protection was applied to the aluminium framed double doors and windows.

The Product: Protectorglaze Temporary Peelable Protection

The most effective glass protection available to the construction industry. A versatile, water resistant, temporary protection that remains intact on the glass for up to 24 months and protects against scratching caused by mortar, plaster, paint, grinder fleck and weld spatter damage.
